FINANCIAL STATUS OF THE CITY. CONFIRMATION OF THE TAX-LEVY-THE FINANCE DEPARTMENT RELIEVED.

The Tax-Levy was confirmed at a meeting of the Board of Supervisors, last Saturday. The au-nouncement had been made two days previous that the confirmation would be made on Friday, but a quorum of the Board failing to be in attendance, the important enactment was postponed. The announcement had the effect, however, of quickening speculations in real estate, it being generally understood that the persons holding the deeds at the moment of the confirmation, as officially announced by the Mayor, must pay the taxes on the property for the year. Many speculators, on sec-ing the announcement on Thursday, hastened to trans-fer the property for which they had bids, while buyers as eagerly closed on Friday after the meeting was supposed to have taken place. The latter were, of course, seriously damaged. On Saturday, after the close of the meeting which confirmed the levy, Mayor Hall gave an interview to several reporters of the morning journals, and, in concluding his summary of information addressed to them, said, with great deliberation, holding his watch in his hand as he spoke: "And I now announce and affirm that, at 10 minutes past 12 this 30th day of September, the Tax-Levy stands confirmed. Most of the reporters, knowing nothing of the importance of this announcement to all dealers in real estate, concluded it to be an illustration of the dramatic manner which the Mayor is popularly supposed to affect, and made no note of the official information that the Tax-Levy was confirmed.

The tax-books were opened on Wednesday, and the receipts in the two days which have elapsed are stated by Deputy-Controller Green to have been very encouraging, though the amount received was not stated by him. The sum is sufficiently large, however, greatly to relieve the Finance Department, and to show that public confidence in it, under its present management, is restored. Mr. Green stated yesterday that the prompt payment of the taxes would greatly facilitate public business and serve the public interest.

CITY HOSPITALS WITHOUT SUPPLIES.

The public hospitals are running short of medical supplies, and have no money to buy more. All the city hospitals are entitled to a certain amount of money for the purchase of hospital supplies. The surplus is used as a reserve fund for the purchase of luxuries and delicacies for the use of the patients. At the Charity Hospital, up town, the supplies are exhausted. The luxuries have been stopped, and the reserve fund used up for the purchase of necessities. The ambulances connected with the new Commissioners' Hospital are not running on account of lack of funds, and the whole system of public hospital arrangements in the city is seriously embarrassed. At Believue Hospital, where they have a large reserve fund, they are not subject to so much embarrassment.

THE POLICE, FIREMEN, HEALTH OFFICIALS AND BOULEVARD LABORERS TO BE PAID. As an assurance that the really important departments of the City Government and the necessary public works are not to be obstructed for the want of

money to pay employers and laborers, Deputy-Controller Green advanced funds, yesterday, to several departments. One hundred thousand dollars was deposited to the credit of the Department of Public Parks, with the restriction that it should be paid to the laborers on the Boulevard. At the same time payments were made to the Police, Fire and Health Departments, in order to discharge the salaries for September, now over due.

NOTICE FROM THE DEPARTMENT OF PARKS TO THE LABORERS ON THE HARLEM RIVER

Judge Hilton, Vice-President and Treasurer of the Department of Public Parks, yesterday caused notice to be served on the Superintendents in control of the force at work on the Third-ave. Bridge, McComb's Dam Bridge, and Fordham Bridge across Harlem River, and the Hariem River improvement force of engineers, &c. The work on the two last-named bridges, as now carried on, will make them fit for public travel during the coming Winter. Provision will have to be made that the bridges are not left without attendants to care for them or to open the draws on Third-ave, and McComb's Dam bridge, necessary for navigation of the river by steamers, &c. This action of the Department is necessi tated by the wish of the President to put himself within the strict letter of the law, to which the Deputy Controller has called the attention of the public officials by prohibtting any expenditures in excess of appropriations.

A REVELATION OF THE CONTROLLER'S BOOKS—HOW AN IGNORANT MAN GOT CHEATED.

One Republican has been a pensioner on the county for the last four years. He received \$2,000 per annum, and was regular in his calls for payment. A friend informed him yesteriny that all the names on the Controller's books would be published, and congratulated him on holding a very lucrative position.

"Why," said the Grant Republican, "I get only \$2,000 a year." "Oh, tell that to the marines," replied his friend; "you are credited on the books with \$6,000 a year." "Theu, by —," replied the Grant man, "the Bing thieves have robbed me of \$4,000 a year."

ANDREW J. GARVEY'S LIBERALITY. HE GIVES AWAY HIS BUSINESS TO HIS OLD FOREMAN.

Over the door of a small shop at No. 58 Third-ave, is the following sign:

"J. WALSH, SUCCESSOR TO A. J. GARVET, PLAIN AND ORNAMENTAL PLASTERER."

In answer to the inquiries with regard to his business connections with Mr. Garvey, Mr. Waish stated yester-day to a TRIBUNE reporter that he had been the Ring plasterer's foreman for 20 years until last Spring, when Mr. Garvey made him a present, for the time being, of the stock and good-will of the establishment. It had never been appraised. The house where his shop was situated belonged to Mr. Garvey, and he leased it of him for \$1,800 a year, but for the stock and good-will of the shop he paid nothing. Mr. Walsh was for three years Superintendent of the work of plastering the new Court-House, in conjunction with Garvey's brother, John Garvey. There were upon an average, 115 men employed, including laborers and plasterers. The work was pushed as vigorously as possible. Mr. Garvey often spoke to him about hastening the work. He did not know that there was any other object in their speeding the work, than to get the job done. There was much more work, than to get the job done. There was much more work completed in a given time in this job than on any other done by Mr. Garvey.

All the modeling and ornamental work for the Court-House was done at this ahop, and then the models were destroyed. Of the financial arrangements in the Court-House-plastering job, he knew nothing.

MR. KEYSER'S STATEMENT.

BOW HIS BILLS WERE PAID-SOME OF THE MISS-ING VOUCHERS RECOVERED.

John H. Keyser of Keyser & Co., one of the largest contractors for city and county work, and the principal manufacturer of Croton water papes for the Department of Public Works, made : voluntary statement before the attorneys of the Committee of Seventy on Tuesday last. A wholly erroneous account of this " confession," as it was called, was published in

the same. The work done was very large, and has kept his establishment ver busy for the last two years. He found it difficult to collect his bills, payment being deferred on various trivial excuses. At length he was approached by some person, generally supposed to have been the late Auditor Watson, though Mr. Keyser has not disclosed the name, who offered to collect his bills for a small percentage. He gave them to him, but did not assign them, and authorized him to collect them.

The long delays then suddenly ended, and the war rants were soon after promptly delivered to Mr. Keyser The person who had secured payment was paid by him Whether the percentage was added to the bills does not appear, and though this idea is expressed, there is no proof of it as yet in the hands of the Committee of Sev-

enty, or their attorneys.

A list of the vouchers of Mr. Keyser, saved from mutilation by Mr. Tweed's man Haggerty, are in the hands of the attorneys, and the originals are in the safe keeping of the Deputy Controller, who has taken every pre caution that they, too, shall not be stolen.

A GERMAN PROTEST AGAINST THE RING. A number of German citizens gathered last night in the hall at Thirteenth-st. and Sixth-ave. to cooperate in the reform movements now taking place in this city. A noticeable feature of the meeting was the absence of politicians of either party. Dr. Friedrich Hoffman occupied the chair, and addressed the meeting on the present condition of the municipal administration in opposition to the Ring. Resolutions were passed to effect that the German-American citizens of the Fifteenth Ward approve the measures for the punishment of the official criminals, who have disgraced and defrauded the city, and welcome the public perception of the necessity of a change in the administration of affairs; that it is the duty of every citizen to exercise his political rights; that the cooperation of all German, Americans in the work of purification is desirable; that, in order to effect a healthy reform, it is necessary to repeal the present city charter; that in the coming elections only those men should be supported who are qualified for office and who are of known integrity; and that all other citizens should join in the efforts for municipal reform. Before the meeting adjourned measures were taken to perfect an organization which should be able to exert a permanent influence in the ward.

THE MAYOR'S GRAND JURY.

The counsel for the Citizens' Committee of Seventy are very indignant at the outrageous manner in which the Grand Jury has been packed by Mayor Hall, who undoubtedly foresaw the attempt that would be made to indict him for conniving at the spoliation of the City Treasury. All feel that the citizens of the city and country at large will see through the corrupt and shallow artifice, and make popular opinion lash the rogues until they wish that (whatever their other crimes had been) they had never sought to tamper with justice in this shameless manner. William C. Barrett states that while he will make no effort to stop the bill which is pending before the Grand Jury, still, if that body does not do its duty, the matter will be presented to the next Grand

Jury.

One of the counsel for the citizens stated that he had been informed that one of the members of the Mayor's Grand Jury had actually been publicly discussing the merits of the cases upon which he would have to pass when in the Grand Jury room. This Grand Juryman stated that he was not so sure that Haggerty and Baulch would be held for stealing the vouchers, as the burned fragments of the vouchers had not been discovered in the room until some time after their arrest.

RUMORS CONCERNING THE TENTH NA-TIONAL BANK.

It is stated that Controller Connolly has disposed of his interest of \$200,000 in the Tenth National Bank, on the corner of Broadway and Leonard-st. The other members of the Ring are said to be selling out gradually their shares in the same bank, and many business men are reputed to be withdrawing their deposits, as, although the bank is regarded as perfectly sound, they do not know how soon an injunction may be served upon the bank officials, restraining them from paying out any money, which would embarrass the depositors, and perhaps ruin many of them.

The bank capital is \$1,000,000 divided into shares of \$100 each. It is officered by Ring officials to a great extent. The officers are William M. Bliss, President; Bernard Smyth, Vice-President; Walter B. Palmer, Cashler; Directors, William M. Tweed, Bernard Smyth, James H. Ingersoll, Peter B. Sweeny, John J. Bradley, Hugh Smith, Joseph C. Shaden, Jay Gould, Henry Smith, A. Oakey Hall, Wilham M. Bliss, Richard B. Conneily, and

THE GRAND DUKE'S VISIT.

RELATIONS OF THE RUSSIAN MINISTER WITH OUR GOVERNMENT—A NICE QUESTION OF DIPLOMATIC ETIQUETTE—HOW THE ENGLISH PRINCES WERE RECEIVED AT THE EXECU-TIVE MANSION.

Washington, Oct. 5 .- As Grand Duke Alexis will soon reach the United States, the position of Mr. Catacazy, the Russian Minister, is freely discussed in diplomatic circles, as that gentleman will take a prominent part in the official and popular receptions in honor of the distinguished visitor; and especially is this subject invested with additional interest from the fact that setween the United States and Rus sia with reference to Mr. Catacazy has been closed, at least for the present, with the result as hereafter men-tioned, the facts having been derived from well-informed sources, and which are substantially as follows: In June last the President, through the Secretary of State, requested the recall of Mr. Catacazy, placing the request on the ground that his conduct, official and personal, had for some time been such as materially to impair his usefulness to his own Government, and to render intercourse with him for either business or social purposes highly disagreeable, and the President also expressed the opinion that the interests of both countries would be promoted; and those relations of cordiality with the Government of the Czar, of the importance of which the Czar was well aware, would be placed upon a much surer footing if the head of the Russian Legation

here were to be changed. Our Minister, Mr. Curtin, pursuant to instructions communicated these views to Mr. Westman, the Vice-Chancellor of the Russian Empire, who, in reply to our Minister, expressed himself to the effect that this was, in his opinion, an improper time to recall Mr. Catacazy, in view of the visit of the Duke Alexis to the United States, as in such event there would be no Minister to attend the Duke as the properly accredited representative of the Russian Government. It was a very serious matter, and he, for the reasons stated, decided to bring the matter to the notice of the Emperor. A successor, he added, could not be appointed in time to meet the Duke on his arrival in the United States. Our Government, however, uninfluenced by the arguments of the Vice-Chancellor in the further progress of the correspondence, continued to

insist on Mr. Catacazy's recall. In the mean time, on the 16th of August, the Secretary of State had an interview with Mr. Catacazy, the only one since June, when the first note was sent to Mr. Curtin At that interview the Secretary informed him that his recall had been requested. It will be recollected that on the 5th of September a letter was published purporting to have been written at St. Petersburg, and dated the 12th of August or four days before that interview, in which it was stated that Mr. Catacazy was thoroughly sustained by his Government, and that during the interview a similar assertion was made by the Secretary him self. It would seem from what has already been stated, whoever may be suspected of being the author of that

letter, that the assertion therein was incorrect. After various notes to the Vice-Chancellor, that officer finally brought the subject of recall to the notice of th Emperor, who requested in the language reported that Mr. Catacazy should be "tolerated" by the President until the visit of Grand Duke Alexis is over. On the 19th or 20th of September, on receiving information of the request, the President, through the proper official the request, the President, through the proper official channel, soceded to it, coupled with the expression of a desire to manifest friendship for the Grand Duke as well as for his Imperial father; and Mr. Catacasy was informed by Secretary Fish that if, when the visit of the Grand Duke is comelanded, he shall not be recalled, his passports will be sent to him, and that the President will not receive him unless accompanied by the Grand Duke; and, further, that the President will at no time hold conversation with him.

and, further, that the President will at no time hold conversation with him.

In connection with the coming of the Grand Duke, it should be stated that the salute to be fired by our naval vessels on the approach of the Russian fleet will not be in his homor, as he is only a subordinate officer on board the ship, but in honor of the Russian Admiral, the superior in command. The ovation to the Grand Duke, according to ediqueste, will commence only when he shall land upon our shores, soon after which he will proceed to Washington, where he will be officially received, as were the Princes Albert and Arthur of England.

In the latter case, when the Secretary of State was informed of the arrival of the Prince, he paid him a visit at the residence of Sir Edward Thornton, and arranged for his presentation to the President. The next day, Sir Edward and the Prince proceeded to the Executive Mansion, and were conducted to the Blue Parior. Soon thereafter the President entered the room, in company with Secretary Fish, who presented the Prince to the President. There were no speeches other than in the way of conversation.

Eight persons narrowly escaped death from kerosene explosion on the pleasure yacht Jennie Lee Monday night, about nine miles off Montauk Point, n Long Island Sound. The passengers were O. B. Jerrolds of Arizona, his wife, three children, Anna Mc-Govern, a servant, and Hank Buttles, Wm. Quinlan, and Jos. Reynolds, seamen. Mr. Jerrolds, in passing through the cabin at midnight, was thrown against the centertable by the lurching of the yacht, and upset the kerosene lamp, which exploded and set fire to the vessel. The youngest child sank with the yacht, but the others with strenuous efforts, reached the shore in small bouts. The survivors left for Philadelphia last evening.
